

Sunday School Teachers

Goal: To teach children (aged preschool through high school) about the love of God through Bible lessons in a safe and friendly environment. During a typical lesson, we play games, watch a video, read a Bible story, and discuss how we can apply its lesson to our lives at school and home.

Responsibilities:

1. Volunteers have a desire to share the message of God's love with our children
2. Volunteers work as a team to create an experience for children through a planned curriculum that will teach, nurture and help the children to develop as part of a Christian community
3. Prepare in advance for the scheduled Sunday
4. Arrive by 9:45 AM to prepare the classroom
5. Interact with the children's parents
6. If desired, you may provide a snack. Craft supplies and items for activities are available at church.

Complete an online training, for those who work with children.
